HITTANSHI TIKLE

hitanshitikle@gmail.com — +91 9322065614 — GitHub

PROFESSIONAL SUMMARY

Electronics and Computer Engineering student at PICT with hands-on experience in data analysis, data cleaning, dashboard development, and software development. Proficient in Excel, Power BI, Tableau, SQL, and Python, with strong foundations in problem solving and analytical thinking. Experienced in identifying data inconsistencies, analyzing trends, and developing interactive dashboards to communicate insights and support data-driven decision-making.

TECHNICAL SKILLS

- **Data Analytics:** Excel, Power BI, Tableau, Pandas, NumPy
- **Querying & Programming:** SQL, Python, C++, C
- **Core CS:** Data Structures & Algorithms, OOP, DBMS, Problem Solving
- **Software Development:** Kotlin, Jetpack Compose, Git/GitHub
- **Tools:** MySQL Workbench, Jupyter Notebook, PowerPoint

EXPERIENCE

Data Analyst Intern — MetricMinds.in

- Cleaned and validated datasets, identified inconsistencies, and improved reporting accuracy through systematic data analysis.
- Used Python, SQL, and Excel to analyze datasets, identify trends, and generate actionable insights.
- Developed interactive Power BI dashboards and reports to track KPIs and communicate business insights.
- Conducted trend and correlation analysis to identify patterns and support data-driven recommendations.

SmartAlignOra – Posture Analysis — PICT Pune

Technologies: Kotlin, Jetpack Compose, Python, Power BI

- Developed an application for real-time posture monitoring and visualization using Kotlin and Jetpack Compose.
- Processed sensor data to identify posture patterns and generate actionable insights.
- Analyzed posture datasets and developed visualizations to monitor performance trends and support interpretation of sensor data.

PROJECTS

Sentiment Analysis using Logistic Regression

Technologies: Python, NLTK, Scikit-learn

- Developed a sentiment analysis model using Python, NLTK, and Logistic Regression.
- Implemented text preprocessing and feature extraction to prepare textual data for model training.
- Evaluated model performance to analyze sentiment classification results.

Sales Performance Evaluation View Dashboard

Tools: Tableau

- Designed an interactive dashboard to monitor Sales, Profit, Discounts, and Order Volume KPIs.
- Analyzed trends and correlations to identify underperforming product categories and derive actionable business insights.
- Implemented revenue forecasting and cumulative profit analysis to support performance evaluation and decision-making.

CERTIFICATIONS & TRAINING

- **Data Analytics – Level 1 Tableau Foundation & Visualization Concepts** July 2024 [50 hours]
  MetricMinds.in × PICT Pune View Certificate
- **Python from Scratch — PICT Pune**
  August 2024 View Certificate
- **Data Science & Analytics Workshop — Jobaaj Learnings**
  January 2025 View Certificate

EDUCATION

- **Pune Institute of Computer Technology (PICT), Pune – SPPU**
  B.E. Electronics and Computer Engineering

RESEARCH PUBLICATION

Optimising Sentiment Analysis using Logistic Regression and NLTK

- **Machine Learning:** Logistic Regression, Scikit-learn
- **Data Analysis:** Pandas, NumPy, Statistical Analysis, Trend/Correlation Analysis
